GCO-10 WITH VISIGARD

INDUSTRIAL

LIQUID BACTERIOSTAT AND ALGAECIDE

READ THE LABEL BEFORE USING

For the control of many biofouling organisms occurring in open recirculating water cooling towers.

GUARANTEE:

Poly[oxyethyle (dimethyliminio) ethylene (dimethyliminio) ethylene dichloride]...1.7%
This product contains 77.18 grams of active ingredient per 4.54 litres which weighs 4.72 Kg.

REGISTRATION NO.: 20430 PEST CONTROL PRODUCTS ACT

Net Contents: 205 L

DuBois Chemicals Canada, Inc.
1 First Canadian Place
100 King Street West, Suite 1600
Toronto, ON M5X 1G5

Tel: 1-866-861-3603

DIRECTIONS FOR USE

DO NOT discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, oceans, and other waters.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

For institutional and industrial use.

PRECLEANING

To avoid unnecessary depletion of the GCO-10 with VISIGARD, precleaning of heavily fouled systems is recommended. Mechanically remove as much reachable growth as possible with brushes and high pressure hose. Prevent loosened sludge from plugging equipment by placing a screen fence around the opening for the return line. Flush loosened matter out basin drain. Pump or bucket sludges from sumps and hot/cold wells.

COOLING TOWERS/OPEN RECIRCULATING SYSTEMS

Intermittent or slug treatment. After precleaning, turn off bleed for 4 to 12 hours. Do not use any other treatment during period of applying biocide. Initially slug feed GCO-10 with VISIGARD to tower basin at 150 ppm to 365 ppm. Repeat dosage if necessary to achieve control. When control is evident, open bleed off valve and return to normal treatment. Maintain control, with subsequent GCO-10 with VISIGARD treatments using GCO-10 with VISIGARD at 45-365 ppm. Frequency of treatment depends upon the system and local conditions.

2017-8115

2018-05-22

CONTINUOUS FEED METHOD

Initial Dose: When the system is noticeably fouled add 150 to 365 ppm of GCO-10 with VISIGARD. Subsequently, maintain this level by pumping a continuous feed of 45-365 ppm. Badly fouled systems must be cleaned before treatment is begun.

Minimum Use Dilution Confirmation (AOAC)

Bacteria - Bacillus Subtilis..... 1488 ppm

Algae

Anacystis Cyanea 179 ppm

Chlorella Pyrenoidosa 179 ppm

Chalmydomonas Sp 179 ppm

Oscillatoria Tenius 179 ppm

Phormidium Inundatum 179 ppm

Scenedesmus Basilimus 179 ppm

Unidentified Mixed Culture 179 ppm

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Do not use in potable water systems. Avoid breathing vapours. Not for use or storage in or around the home environment. Do not use, pour, spill or

store near heat or open flame. If frozen, thaw and mix to make usable. Do not mix with any other chemical. Harmful if swallowed. Avoid contact with skin, eyes or clothing. Wear a long-sleeved shirt and long pants, chemical-resistant gloves during handling, clean-up and repair activities. In addition, a chemical-resistant apron is required for workers handling end-use products in industrial settings. Wash thoroughly after handling. Immediately remove contaminated clothing and wash before reuse.

FIRST AID:

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and other aquatic organisms. Do not discharge in lakes, streams, ponds, or public waters.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial/territorial instructions for any additional required cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial/territorial requirements.
4. For information on the disposal of unused, unwanted product and cleanup of spills, contact the provincial/ territorial Regulatory Agency or the Manufacturer.
