## **DIRECTIONS FOR USE**

### **For the Preservation of Clay Slurries, Adhesives, Coatings and High Viscosity Suspensions:**

For preservation of slurries and high viscosity suspensions, AMA<sup>®</sup>-20-C should be added at a point in the processing system where there will be sufficient time and agitation for good mixing and dispersion.

Add AMA<sup>®</sup>-20-C at use levels of 0.04-0.40%, by weight, based on the total formulation in slurries of starch, clay, calcium carbonate or titanium dioxide; paper coatings; high viscosity suspensions (e.g. polymers; silica-polymer combinations); polyvinyl alcohol/polyvinyl acetate based adhesives; starch based adhesives; dextrin based adhesives. The exact amount of material to be added for the preservation of any given formulation will depend on the components and local storage conditions. Dosage rates should be determined by actual tests.

### **Paper mill slime control:**

For the control of slime-forming and/or spoilage bacteria: AMA<sup>®</sup>-20-C is added at a point in the system (raw stock chest; beater and/or refiner chest or machine chest-wire pit) where it will be uniformly mixed. Application may be continuous or intermittent for a certain number of hours/day or per shift, depending upon system characteristics. Add 160 to 650 ml of AMA<sup>®</sup>-20-C per metric ton of paper produced.

**Intermittent feed method:** Apply 390 to 650 ml of AMA<sup>®</sup>-20-C per metric ton (dry basis) of pulp or paper for 2 hours every 8 hours. Badly fouled process systems must be cleaned before initial treatment.

**Continuous feed method:** Apply 160 to 480 ml of AMA<sup>®</sup>-20-C per metric ton (dry basis) of pulp or paper produced on a continuous basis. Badly fouled process systems must be cleaned before initial treatment.

*For use with closed loading and transfer systems only.*

*DO NOT discharge effluent containing this product or the biocide produced into lakes, streams, ponds, estuaries, oceans or other waters unless the effluent has been detoxified by suitable means.*

Note: this product is not to be used in the production of any materials that may come into contact with food.

*DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.*

*As this product is not registered for the control of pests in aquatic systems, DO NOT use to control aquatic pests.*

## **PRECAUTIONS**

**KEEP OUT OF REACH OF CHILDREN**

**WARNING!**

*Fatal or Poisonous if swallowed or absorbed through the skin. DO NOT get on skin or on clothing. Harmful if inhaled. Avoid inhaling/breathing vapour or sprays. CORROSIVE to the eye and to skin. DO NOT get in eyes or on skin. Potential skin sensitizer.*

Wear coveralls over a long-sleeved shirt and long pants, shoes plus socks, chemical-resistant gloves, and goggles or face shield during mixing, loading, application and all other handling activities.

Avoid contact with eyes, skin and clothing.

Do not breathe vapours.

Use with adequate ventilation.

Do not spray the product in open systems.

Keep container closed.

Avoid contamination of food, feed or drinking water.

Use with adequate ventilation. DO NOT apply the product in open systems.

Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

Remove clothing immediately if pesticide comes in contact with skin through soaked clothing or spills. Then wash skin thoroughly and put on clean clothing. Wash contaminated clothing separately from other clothes before reuse.

Store personal protective equipment out of reach of children and pets.

Avoid touching 'clean' surfaces while wearing personal protective equipment (for example: door handles, counter tops), or thoroughly clean these surfaces afterwards with water and detergent.

Remove personal protective equipment immediately after handling this product. Remove personal protective equipment in a predetermined area separate from living or working areas.

Wash the outside of the gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Avoid touching eyes and face until you have washed your hands.

Never use the mouth to siphon product from containers or to blow out clogged lines, nozzles, etc.

Repair/replace torn or broken personal protective equipment.

Use hot water, heavy-duty liquid detergent, the highest water level setting, and the longest wash cycle. Keep and wash personal protective equipment separately from other laundry.

If heavily soiled, wash personal protective equipment two or three times. After washing, run the washing machine through a complete cycle with detergent. If possible, line-dry the clothing.

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product. Do not reuse them.

### **First aid**

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**If on Skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

**If Swallowed:** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention

**Toxicological information:** There is no specific antidote. Medical personnel should provide symptomatic or supportive treatment. Probable mucosal damage may contraindicate the use of gastric lavage. This product contains petroleum distillates. Vomiting may cause aspiration pneumonia.

**ENVIRONMENTAL PRECAUTIONS: Toxic to aquatic organisms.** This pesticide is toxic to fish. DO NOT discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, oceans, public waters or other waters. Open dumping is prohibited.

#### **STORAGE**

To prevent contamination store this product away from food or feed.  
Do not contaminate water, food, or feed by storage or disposal.

#### **DISPOSAL PRODUCT**

**For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency.**

**Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.**

**Do not flush into surface streams. Inform the provincial regulatory agency or the manufacturer.**

#### **CONTAINERS**

##### **DISPOSABLE CONTAINERS:**

- 1. Triple or pressure-rinse the empty container. Add the rinsings to the treatment site.**
- 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.**
- 3. Make the empty container unsuitable for further use.**
- 4. Dispose of the container in accordance with provincial requirements.**

##### **RETURNABLE CONTAINERS:**

Do not reuse this container for any purpose. For disposal, this empty container may be returned to the point of purchase (distributor/dealer).

##### **REFILLABLE CONTAINERS:**

- 1. Close Valve.**
- 2. For disposal, this container is to be returned to point of purchase (distributor/dealer). It must be refilled by the distributor/dealer with the same product. Do not reuse this container for any other purpose.**

3. Contact the distributor/dealer to arrange for the return of the container.

**NOTICE TO USER**

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
