

Eclipse 602

COMMERCIAL (INDUSTRIAL)

MICROBICIDE

KEEP OUT OF REACH OF CHILDREN

REGISTRATION NO.: 25220
PEST CONTROL PRODUCTS ACT

ACTIVE INGREDIENT:

5-Chloro-2-methyl-4-isothiazolin-3-one.....	1.13 %
2-Methyl-4-isothiazolin-3-one.....	0.37 %

WARNING

CORROSIVE
POTENTIAL SKIN SENSITIZER

READ THE LABEL BEFORE USING

DO NOT USE IN POTABLE WATER SYSTEMS

ENVIRONMENTAL PRECAUTIONS: This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product. Do not contaminate water by cleaning of equipment or disposal of waters.

DIRECTIONS FOR USE:

COOLING TOWERS:

ECLIPSE 602 Microbicide is recommended for the removal of slime from fouled towers. Add 0.33 to 8.67 kg of ECLIPSE 602 Microbicide as supplied per 10 tonnes of water in the system (equivalent to about 0.5 to 13 ppm active ingredient). This dosage should be repeated 2 to 3 times per week until fouling has been reduced to an acceptable level thus establishing microbial control. ECLIPSE 602 Microbicide should be added to the basin, to the distribution boxes or at any point where it will be rapidly and uniformly dispersed throughout the system.

AIR WASHER SYSTEMS:

Add to the air washer sump or chill water sump to ensure uniform mixing 4.20 to 16.43 kg of ECLIPSE 602 Microbicide (equivalent to 6.3 to 24.6 ppm active ingredient) per 10,000 litres of water in the system, depending upon the severity of contamination, to control bacteria, fungi and algae which cause fouling in industrial air washer systems. Badly fouled systems must be cleaned before initial treatment. (Note: For use only in industrial air washing systems which maintain effective mist-eliminating components.)

BREWERY PASTEURIZERS & CAN WARMERS

Add ECLIPSE 602 Microbicide at a point in the system to insure uniform mixing. After use of ECLIPSE 602 Microbicide, employ a thorough rinse cycle with fresh potable water. **Initial dose:** When the system is noticeably fouled, apply 148 to 883 ppm of ECLIPSE 602 Microbicide (1.48 to 8.83 kg or 1.45 to 8.65 L of ECLIPSE 602 Microbicide per 10 tonnes of water in the system). Repeat until control is achieved. **Subsequent dose:** When antimicrobial control is evident, add 35 to 219 ppm of ECLIPSE 602 Microbicide (0.35 to 2.19 kg or 0.343 to 2.15 L of ECLIPSE 602 Microbicide per 10 tonnes of water in the system) weekly or as needed to maintain control. Badly fouled systems must be cleaned before treatment is begun.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN

DANGER - CORROSIVE TO EYES AND CAUSES SKIN BURNS. MAY CAUSE ALLERGIC SKIN REACTION. MAY BE FATAL IF SWALLOWED OR ABSORBED THROUGH THE SKIN. Potential skin sensitizer. Do not get in eyes, on skin, or on clothing. Do not swallow. Avoid breathing vapours and spray mists. Wash skin thoroughly with soap and water after handling. Remove contaminated clothing and wash separately from other laundry before reuse. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product. Users should remove Personal Protective Equipment (PPE) immediately after handling this product. Wash the outside of gloves before removing. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Wear long pants, a long sleeved shirt, chemical-resistant gloves, a full face NIOSH-approved respirator and a chemical-resistant apron during mixing/loading, clean up, and repair.

STORAGE: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. If plastic, do not reuse empty container.

TOXICOLOGICAL INFORMATION: Aspiration may cause lung damage. Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed. Skin burns and corrosion may be delayed for several hours.

FIRST AID:

Eye Contact: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Skin or Clothing Contact: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Ingestion: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL:

1. Triple-or pressure-rinse the emptied container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
