READ THE LABEL BEFORE USING

KEEP OUT OF REACH OF CHILDREN

DESCRIPTION: Biotech III Industrial Microbiocide is a broad spectrum microbiocide formulated to control the growth of algae, bacteria, and fungi.

DIRECTIONS FOR USE:

DO NOT discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, oceans or other waters. **DO NOT** contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

Cooling Tower Systems: Prior to use in water cooling towers, systems should be cleaned to remove organic, inorganic, and microbiological deposits. An initial slug addition of 800 to 1,200 mL per 10,000 litres of water should then be added to the sump of the cooling water towers. Repeat the initial dosage until control is evident. Subsequent slug additions of 400 to 1,200 mL per 10,000 liters of water should be added every 2 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleedoff and the severity of the microbiological problem.

Industrial Air Wash Systems: Prior to use in air washers, systems should be cleaned to remove organic, inorganic, and microbiological deposits. An initial slug addition of 186 to 236 mL per 1,000 litres of water should then be added to the sump or the water collector trays. Repeat the initial dosage until control is evident. Subsequent slug additions of 86 to 236 mL per 1,000 litres of water should be added every 1 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleedoff and the severity of the microbiological problem. For use only in systems equipped with effective mist eliminating components.

DISPOSAL:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

TOXICOLOGICAL INFORMATION: Note to physician: probable mucosal damage following ingestion may contraindicate gastric lavage. Treat symptomatically.

ENVIRONMENTAL HAZARDS: Toxic to aquatic organisms. Keep out of lakes, streams, and ponds. Do not contaminate water, food, or feed by storage or disposal.

REGISTRATION NO. 25235 PEST CONTROL PRODUCTS ACT

GUARANTEE: Potassium dimethyldithiocarbamate - 10% (by weight)

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

WARNING: POISON, CORROSIVE TO EYES, SKIN IRRITANT and POTENTIAL SKIN SENSITIZER.

PRECAUTIONS: Corrosive to the eye. **DO NOT** get in eyes. Corrosive to skin. **DO NOT** get on skin. Potential skin sensitizer. Harmful if swallowed. Wear long-sleeved shirt, long pants, chemical-resistant gloves, protective eyewear (goggles or face shield) when handling the product, clean-up and repair activities.

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration number with you when seeking medical attention.
